

WD-Assign1 – History Timeline

Create a timeline showing 8 significant events or inventions from the history lesson. Organize the events chronologically. Include a diagram and description for each event. Make it look nice! Do not use my or text! Create something of your own.

You may use Photoshop, PowerPoint, Word, or any other computer program you are comfortable with. If you would prefer, you can do it by hand (colors are expected).

If you choose to do this on computer, save your assignment as **firstnamelastname-WDassign1.(ext)** and place a copy in my assignments folder

If you do the assignment by hand, please hand the paper in at my desk.

WD-Assign1: History Timeline

Accuracy and explanation of events	/10
Quality of diagrams	/10
Overall Impression of finished product	/10
