

## WD-Assign11 Continued – Creating a Table

Open your last assignment "*firstnamelastname-WDAssign11.html*" and make the following changes to it.

**Table 1** - must have the whole table aligned to the center of the screen, all table data aligned to the right, and a padding of 10 pixels in each cell. The whole table needs to be sized to a fixed width that makes the data look good.

**Table 2** - must have the whole table aligned to the right of the screen, all table data aligned to the center, and a padding of 5 pixels in each cell. The whole table needs to be sized to a percentage width that makes the data look good.

When finished **validate** and, **place a copy in my dropoff folder.**

## WD-Assign11 Rubric– Creating a Table
