

## WD-Assign6a – Top Ten Nested List

Start with a new template file.

To get full marks you must do the following things:

- Create a Web page that has a nested "Top Ten " List (the topic is up to you).
- Use a heading for the page title, and a paragraph outlining what your page is about.
- The main list must be ordered using uppercase Roman numeral numbers
- Each sub-list item must be unordered using square bullets.

You may choose any topic you want, but it should be school appropriate.

I have provided a sample below. Television shows are now off limits as a subject.

Save this page as "***firstnamelastname-WDAssign6a.html***"

When finished, place a copy of this file in my drop-off folder.

A sample is provided on the next page.

---

### WD-Assign6a: Top Ten Nested List Rubric

Heading tags and Paragraph explain purpose of the page	/2
Main list is properly formatted using Uppercase Roman Numerals	/5
Sub lists are ordered using square bullets	/5
